

CAPABILITIES STATEMENT

Defense Logistics & Military Packaging.

Government agencies and prime contractors rely on JetCo Federal's combination of military packaging expertise and warehousing solutions. We serve as a military packaging 3PL to prime contractors – our team receives, stores, incorporates military packaging, and coordinates shipping for our defense prime contracting partners.

Prime contractors reduce risk by including JetCo Federal during product design and quoting, recognizing packaging as part of the production life cycle. We expertly design this critical finale to the manufacturing process, including fulfillment of Special Packaging Instructions (SPI).

JetCo Federal produces and delivers simple and complex packaging solutions as a prime contractor to federal agencies. We integrate packaging solutions to include corrugated cold-chain, flexible, foam, adhesive, and wood. JetCo Federal builds and delivers custom crating, including for munitions.

Differentiators – Embracing the Complex

- Mastery in MIL-SPC, MIL-DTL, MIL-PRF, ASTMs related to packaging, labeling, and palletization
- Single source solution for packaging design, packing and labeling, warehousing, distribution, and transportation
- In-house packaging, engineering, and logistics experts
- National network of vetted, highly qualified manufacturing partners
- Diverse, redundant sources of quality suppliers
- Proficiency in industry and raw materials trends
- Operationalized ISO 9001:2015 quality management system
- Contract compliance with FARS, DFARS, GSARS, NIST SP800-171
- Fulfillment for hard to source or obsolete parts
- Demonstrated, impressive past performance on complex contract requirements
- Strong CPARS with 20 years of federal/DoD experience

Capabilities

- Packaging design and engineering
- Custom crating with POP testing
- Supply chain qualification and management
- Order fulfillment
- Corrugated cartons and packaging supplies
- Warehousing, storage, and distribution
- Logistics and transportation
- Pallets, packing and safety supplies
- Assembly / kitting

Clients

- Defense Logistics Agency
- Internal Revenue Service
- UNICOR/Federal Prison Industries
- Department of the Army
- Department of the Navy

Defense Logistics Agency

SP3300-24-D-0007

\$27,555,754.00

Five-year firm-fixed price IDIQ to produce and deliver single wall, double wall, and triple wall weather-resistant corrugated fiberboard shipping boxes; single wall and double wall domestic corrugated fiberboard shipping boxes; and single wall, double wall, and triple wall corrugated fiberboard sheets to DLA-operated warehousing and distribution sites. We deliver 113 CLINS to 52 DoDAACs across the country with no predictability in the ordering cycle, and at a five unit minimum. This is the second five-year contract awarded to us for these CLINS; the previous was SP3300-18-D-0006.

Department of the Navy

N00164-23-D-s002

\$250,000.00

Three-year firm-fixed price requirements contract to deliver customized packaging components to support the Naval transducer reset program. Requires management of seven manufacturers to support production and delivery of 14 CLINS to a secure facility. This is the second contract held; JetCo won the recompetes in 2023, which expanded the program. We've been supporting the Navy consecutively on the program since 2019.

Michigan Department of Health and Human Services

\$4,400,000.00

Six year contract for the fulfillment of the State of Michigan's lead filter distribution program, Get Ahead of Lead (GAoL). Requires receipt of government owned property, inventory management, storage, fulfillment of 25 different packages of filters, educational materials, and replacement cartridges. Report daily, monthly, and quarterly for contract compliance. Design packaging for each of the components.

JetCo Packaging Solutions LLC's management continued their excellent customer service and communication during this duration of the contract... management had a strong grasp of their operations while maintaining open communication with the government. They remained flexible and worked hard to meet mission requirements.
